# To The Public

The author takes this opportunity of thanking all who have been purchasers of this work, hoping that the same may be of much use to them, and that they may be benefited by the Card inserted therein.

It was his aim to furnish a plain, accurate and durable County Atlas, and one that could be sold so that it might find its way into the library of every home in the county. How far he has succeeded will be left for the public to answer. He will say, however, that he feels congratulated by the many favorable reports received, showing the appreciation of the work by the numerous purchasers.

There have been a few mistakes found, some of which were due to the printer, some to the incorrectness of the Records, and some to the oversight of the author, which are noted in the Errata above. There may be others which he hopes will be overlooked by a considerate public, and he feels certain that they will, when they know the difficulties that were encountered in procuring the material for this work.

There are some parts of the county that have not been thoroughly canvassed, but he hopes to have it completed during the coming season. He also desires to state that if anyone has been missed who desires an Atlas, it would be considered a favor to be notified of the fact, and a book will be saved for said party.

There are only a limited number of books left, and as the author cannot afford to publish another edition at the price at which they are sold, so all those who wish to secure a copy, should govern themselves accordingly.

He also feels thankful for the liberal patronage this work has received, and for the patience of those waiting for the Suppleplement.

THAD E. BUCK, Publisher.

Insert this Supplement in back of Atlas.
